5.					
6.					
1	Introduction to Nanotechnology	LECTURE			
2	Nanoscale phenomena and properties I	LECTURE			
3	Nanoscale phenomena and properties II	LECTURE			
4	Zero-Dimensional Nanostructures: Nanoparticles	LECTURE			
5	One-Dimensional Nanostructures: Nanowires, Nanorods	LECTURE			
6	Two-Dimensional Nanostructures: Thin Films	LECTURE			
7	Special Materials	LECTURE			
8	Mid-term Exam, 1st Presentation	PRESENTATION			
9	Nanostructures Fabricated by Physical Techniques	LECTURE			
10	Self-assembly of Nanostructures	LECTURE			
11	Characterization and Properties of Nanomaterials (SPM I)	LECTURE			

12	Characterization and Properties of Nanomaterials (SPM II)	LECTURE	
13	Characterization and Properties of Nanomaterials (Other nanoscale characterization)	LECTURE	
14	Applications of Nanotechnology	LECTURE	
15	Introduction to Nano-Biotechnology	LECTURE	
16	Final Exam, Final Presentation	PRESENTATION
